

FBI for Christ's Sake
Prosecute ALL Epstein Coconspirators
Do Your Job or Resign!

250 years ago men and women in America faced an uncertain future. Seven generations ago my grandfather William Sparks was one such man. He reached his breaking point with the British colonial government and he decided to risk everything fighting for a better life alongside his fellow patriots. Today we all still benefit from their sacrifice.

Today America faces a dark hour. Since 09/11/2001, an event our government is still lying about, we have been at war in the Middle East in Afghanistan 2001, Iraq 2003, Somalia 2007, Libya 2011, Syria 2014, Yemen 2015, and Sudan 2023. Not one of these countries posed a legitimate threat to the United States and none of these wars has been in the interest of the American people. Since 2001 our national debt has ballooned from 5.8 Trillion to 36 Trillion today. Quality of life has been greatly reduced alongside a flatlining life expectancy.

Cui Bono (Who Benefits?)

There are two major beneficiaries of these conflicts. Israel has dismantled most regional adversaries and the military industrial complex has drained incalculable wealth from the American people (Think Raytheon, Northrup Grumman, Lockheed Martin and Boeing).

Who AM I

My name is Dr. Jonathan James Lake and Son of the American Revolution. I was previously a military scientist working on advanced DARPA Projects as part of my PhD in Electrical Engineering. I was bankrupted and terrorized by the Israeli Mossad back in 2014. A foreign intelligence

agency terrorized a U.S. military scientist on U.S. soil because of his political influence at UCLA and his vocal support for the Palestinians. Before I joined DARPA I pledged to support and defend the Constitution of the United States against all enemies foreign and DOMESTIC, a pledge I honor to this day. Being subjected to this was not even the worst part. Worse still, when I reported the subversive activities of Mossad to the FBI I learned the FBI aids and abets these zionist terrorists. The Republic is dying. Mossad asset Jeffrey Epstein trafficked countless American children in order to blackmail our spineless mealymouthed politicians. If you've ever wondered why our Congress clap like trained seals for the war criminal Netanyahu, look no further than Epstein's blackmail operation mixed with political bribery.

Additionally Harvey Weinstein hired ex-Mossad assets to terrorize his rape victims into silence. (Thank God for Ronan Farrow's fearless reporting on this). The FBI by complicity and inaction has turned America into a zionist pedophile playground. What the hell is the point in having the strongest military in the world if we cannot even protect our women and children here at home?

A Call to Action

Despite everything and because of my firm belief in God, I know there must still be some patriotic men and women even within our security apparatus. If we want a free and independent America we must pressure the FBI to reveal and prosecute EVERY Jeffrey Epstein coconspirator. Tell the FBI "Do Your Job!" If you are able, go physically be present at your local FBI field office and demand accountability. We must expose every zionist lie and understand

a nyone wh o puts the Israeli government's interests ahead
of our Constitution is a traitor to our Republic. As for me I
will be staging a h unger strike at the Dallas office until the FBI
files charges against all Epstein coconspirators. My action is in
solidarity with all other hunger strikers/spiritual warriors with
a special call out to my fellow Bruin Maya Abdulla. The Truth shall
make us free. I pray my malnourished body serves as a representation
th at our nation and world is starving for Justice. Sacrifice is needed
at this time. I h ope y ou all one day see my sacrifice is for you
and your children, however this ends up. This is an act of love for all
Americans and is my prayer for peace among all nations. There may be
a day when th e strength of men fails but as long as there is blood
pumping in my veins I will fight for the soul of this land and her
people. Liberate America! Free Palestine! Death to the Empire,
Long Live the Republic!!!
